### **10. Use of Re/marketing Tools**

#### **Google Googleadservices / Google AdWords Conversion**

**10.1.** On the basis of our legitimate interests (i.e. interest in the analysis, optimization and economic operation of our online offer within the meaning of Art. 6 para. 1 lit. f. GDPR) we use the marketing and remarketing services (abbreviated "Google Marketing Services") of Google Inc. 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA, ("Google").

**10.2.** Google is certified under the [Privacy Shield Agreement](#) and thereby offers a guarantee to comply with European data protection law.

**10.3.** The Google marketing services allow us to target ads for and on our site in order to present users only with ads that potentially match their interests. For example, if a user sees ads for products he has been interested in on other websites, this is referred to as "remarketing". For these purposes, when our and other websites on which Google marketing services are active are accessed, Google directly executes a code from Google and so-called (re)marketing tags are integrated into the website. With their help, an individual cookie is stored on the user's device (comparable technologies can also be used instead of cookies).

Cookies can be set by various domains, including google.com, doubleclick.net, invitemediamedia.com, admeld.com, googlesyndication.com or googleadservices.com. In this file it is noted which websites the user visits, which contents he is interested in and which offers he has clicked on, furthermore technical information about the browser and operating system, referring websites, visiting time as well as further information about the use of the online offer. The IP address of the users is also recorded, whereby we inform within the framework of Google Analytics that the IP address is shortened within member states of the European Union or in other signatory states of the European Economic Area Agreement and only in exceptional cases completely transmitted to a Google server in the USA and shortened there.

The IP address is not combined with the user's data within other Google offers. The above information may also be linked by Google to such information from other sources. If the user then visits other websites, the ads tailored to his interests can be displayed.

**10.4.** Users' data is processed pseudonymously within the framework of Google marketing services. I.e. For example, Google does not store and process the names or email addresses of users, but processes relevant cookie-related data within pseudonymous user profiles. This means from Google's point of view, the ads are not managed and displayed for a specifically identified person, but for the cookie holder, regardless of who this cookie holder is. This does not apply if a user has expressly permitted Google to process the data without this pseudonymization. The information collected by Google marketing services about users is transmitted to Google and stored on Google's servers in the USA.

**10.5.** One of the Google marketing services we use is the online advertising program "Google AdWords". In the case of Google AdWords, each AdWords customer receives a different "conversion cookie". Cookies can therefore not be traced through the websites of AdWords customers. The information collected by the cookie is used to generate conversion statistics for AdWords customers who have opted for conversion tracking. AdWords customers see the total number of users who clicked on their ad and were redirected to a page with a conversion tracking tag. However, they will not receive any information that can be used to personally identify users.

**10.6.** For further information on Google's use of data for marketing purposes, please refer to the overview page or [Google's privacy policy](#).

**10.7.** If you wish to object to interest-based advertising by Google marketing services, you can use the setting and opt-out options provided by Google.

### **11. Use of Google Maps**

**11.1.** Our website uses Google Maps to display our location and to provide directions. This is a service provided by Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043 (hereinafter: Google).

**11.2.** Through certification according to the [EU-US Privacy Shield](#). Google guarantees that it will follow the EU's data protection regulations when processing data in the United States. To enable the display of certain fonts on our website, a connection to the Google server in the USA is established whenever our website is accessed. If you access the Google Maps components integrated into our website, Google will store a cookie on your device via your browser.

## Data Protection Declaration

of the Profi Partner GmbH Company (operator of Linguarum.us)  
(last updated in January 2019)

Your user settings and data are processed to display our location and create a route description. We cannot prevent Google from using servers in the USA.

- 11.3.** The legal basis is Art. 6 Para. 1 lit. f) GDPR. Our legitimate interest lies in optimizing the functionality of our website. By connecting to Google in this way, Google can determine from which website your request has been sent and to which IP address the directions are transmitted. If you do not agree to this processing, you have the option of preventing the installation of cookies by making the appropriate settings in your browser.
- 11.4.** Further details can be found in the section about cookies above. In addition, the use of Google Maps and the information obtained via Google Maps is governed by the Google Terms of Use <https://policies.google.com/terms?gl=DE&hl=en> and the Terms and Conditions for Google Maps [https://www.google.com/intl/de\\_de/help/terms\\_maps.html](https://www.google.com/intl/de_de/help/terms_maps.html). Google also offers further information at <https://adssettings.google.com/authenticated> and <https://policies.google.com/privacy>

### 12. Disclosure of data to third parties and third party providers

If we use subcontractors and service providers to provide our services, we take appropriate legal precautions as well as appropriate technical and organizational measures to ensure the protection of personal data in accordance with the relevant legal regulations. This is carried out in particular by concluding framework agreements with freelance translators, proofreaders and editors who guarantee a level of data protection that is at least as high as that between you as the client and us as a translation service provider in accordance with this privacy policy.

### 13. Rights of Data Subjects

The General Data Protection Regulation shall guarantee you certain rights which you can assert against us insofar as the statutory requirements are met.

**Art. 15 GDPR – Right of access by the data subject:** You shall have the right to demand confirmation from us as to whether your personal data are being processed and, if this is indeed the case, which personal data these are as well as the detailed circumstances of the data processing.

**Art. 16 GDPR – Right to rectification:** You shall have the right to demand that we promptly correct your personal data which are incorrect. In this regard, subject to the consideration of the purposes of the processing, you shall also have the right to demand the completion of incomplete personal data – including via a supplemental declaration.

**Art. 18 GDPR – Right to restriction of the processing:** You shall have the right to demand that we restrict the processing of your personal data.

**Art. 20 GDPR – Right to data portability:** In the case that processing is undertaken based upon a consent or in order to fulfil a contractual agreement, you shall have the right to receive the personal data, which you have provided to us, in a structured, well-established and machine-readable format and to transmit these data to another responsible party without any objections upon our part, or to have the data transmitted directly to another responsible party, insofar as this is technically feasible..

**Art. 21 GDPR – Right to object:** You shall have the right – for reasons related to your specific situation – to, at any time, lodge an objection to the processing of your personal data which is required owing to a rightful interest upon our part or in order to fulfil a task in the public's interest or in order to execute official authority.

If you lodge an objection, we shall no longer process your personal data unless we can demonstrate compelling reasons, worth protecting, for the processing, which outweigh your interests, rights and freedoms, or the processing serves the purpose of the assertion, exercising or warding-off of legal claims.

Insofar as we process your personal data in order to conduct direct advertising, you shall have the right to, at any time, object to the processing. If you object to the processing for the purposes of direct advertising, then we shall no longer process your personal data for these purposes.

**Art. 77 GDPR in conjunction with § 19 BDSG – Right to lodge a complaint with a supervisory authority:** You shall have the right, at any time, to submit a complaint to a government supervisory agency – particularly in the member country of your residence, your workplace or the location where the purported violation took place, if you are of the belief that the processing of your personal data violates applicable law.

If you have granted us your consent, you shall have the right to revoke your consent at any time. However, in this case, all data processing shall remain legal that which we have undertaken until your revocation is made. For this purpose, you can send us a message to our Data Protection Officer mentioned above.
